

Quality Care, Close to Home

You don't have to travel far from home to get quality health care.

Waldo County General Hospital operates a number of primary care offices, including five health centers, where dedicated, friendly staff can help you get the care you need, when you need it. Take advantage of special services, such as priority sick visits and on-site lab work. If you qualify, we also offer programs that can help you pay for doctor visits or prescriptions. **Meet our providers at wcgh.org/providers.**
