

Next year, over 200,000 women will get breast cancer.

Schedule a mammogram.

October is National Breast Cancer Awareness Month and a perfect reminder that early detection can save lives. Get in touch with your doctor today and set up a mammogram. It's especially important because these x-rays may find tumors too small to feel.

Free Screening Mammogram for
women who can't afford one

Saturday, October 29, 2011, from 8-Noon

Call 338-9366 for more information or
to schedule your appointment
