WHAT'S THE TEMP OF YOUR SUMMER?

SEE INSIDE FOR DETAILS

The worst part about summer is that it comes and goes so quickly. You wait for it all year and then it hits—the kids are out of school, BBQs on the weekends, and family vacations. Before you know it, the fun is over and we're left thinking "what happened to my summer?". The problem is that we don't often take the time to plan moments for memories to be made. We wing it. At CMI North, we understand that fun memories often come from something planned, from something you look forward to. If you plan carefully, great memories made this summer can help you get through the rest of the year when there's a little less sunshine and a little less time to play. We've put together a few ideas to help you make the most of your summer. Enjoy June, for all it's worth! - **MARTIN J. FARRELL**, CMI North
